## Top Tips!

The Therapy Box Scholarship is no ordinary scholarship. Instead of writing an essay, applicants design a game for our Activity Library.

When designing your activity, please consider the following:

**Originality** - Is the idea new and innovative? Take a look at our library to see what types of activities we already use.

**Suitable** - Is the activity something we can add to our library? Is it able to be cleaned and reused? Is it designed for people who will be using the activities from our library?

**Ease of use** - Is the activity easy to use by a Diversional Therapist?
